January 31, 2017

Dear Jim:

I would like to take a moment to thank you for the outstanding service your company has provided to the City of Boise over the last 10 years.

As the City's telecommunications infrastructure contractor, your organization has been an invaluable asset on a multitude of City initiatives. The expertise your company provides has helped the City complete several challenging projects, such as the redesign of industrial networks and fiber at our Wastewater Facilities, the design and install of cabling and datacenter infrastructure at our Police and Fire Headquarters, cabling and installation of the Airport's security infrastructure and cameras, cabling for our branch libraries, cabling refresh for all fire stations, fiber optic installation both in the streets and in our facilities, the list goes on.

You and your staff have met each challenge with a high degree of professionalism, skill and quality. I am pleased to say that myself, our CIO Darrin Harris, and the City of Boise have come to rely on the services that PreCom provides and considers you and your staff to be a natural extension of our team.

Thanks again for your excellent service,

Adam Reno
